Our net interest margin increased by 4 basis points as we continued to benefit from cashflows repricing. Our core noninterest income remained steady while core noninterest expense increased by 2.0%. Average deposits were down by 0.9% and average loans were down modestly. Finally, we successfully closed a preferred stock offering in late June, strengthening our already strong capital levels."

The decrease from the prior quarter was primarily due to decreases in investment securities and funds sold partially offset by an increase in cash and due from banks. The decrease from the same period in 2023 was primarily due to decreases in our investment securities and funds sold.

The investment securities portfolio was \$7.1 billion at June 30, 2024, a decrease of 2.1% from March 31, 2024 and a decrease of 9.6% from June 30, 2023. This linked quarter decrease was primarily due to cashflows from the portfolio not being reinvested into securities. The decrease from the same quarter of 2023 was due to the sale of \$159.1 million of investment securities in the third quarter of 2023, as well as cashflows from the portfolio not being reinvested into securities. The investment portfolio remains largely comprised of securities issued by U.S. government agencies and U.S. government-sponsored enterprises

Total consumer loans were \$8.0 billion at June 30, 2024, a decrease of 0.8% from the prior quarter and a decrease of 3.5% from the same period in 2023. The decreases were primarily due to decreases in our residential mortgage, home equity and automobile portfolios.
