### FOR IMMEDIATE RELEASE

HONOLULU, HI (April 24, 2023) -- Bank of Hawai'i Corporation (NYSE: BOH) today reported diluted earnings per common share of \$1.14 for the first quarter of 2023, compared with diluted earnings per common share of \$1.50 in the previous quarter and \$1.32 in the same quarter of 2022. Net income for the first quarter of 2023 was \$46.8 million, down 23.6% from the previous quarter and down 14.6% from the same quarter of 2022. The return on average common equity for the first quarter of 2023 was 15.79% compared with 21.28% in the previous quarter and 15.44% in the same quarter of 2022.

"Amidst a challenging macro environmental backdrop, Bank of Hawai'i delivered solid operating performance in the first quarter of 2023," said Peter Ho, Chairman, President, and CEO. "Average deposits grew 0.4% in the first quarter and were essentially flat from a year ago. Spot deposit balances were down 0.6% from the prior quarter and down 1.1% from the prior year. Deposit costs, while rising, continue to show the benefits of our unique Hawai'i deposit base which is diversified and long tenured. Loans grew 1.3% on a linked quarter basis with growth across both our consumer and commercial portfolios. Credit quality remains excellent. Non-performing assets were lower on both a linked quarter and year on year basis. Annualized net charge-offs were 0.08% during the quarter."

### Financial Highlights

Net interest income for the first quarter of 2023 was \$136.0 million, a decrease of 3.4% from the previous quarter and an increase of 8.5% from the same quarter of 2022. The decrease in net interest income in the first quarter of 2023 compared to the prior quarter was due to two fewer days in the quarter, which reduced net interest income by approximately \$1.6 million, as well as higher funding costs, partially offset by loan growth and higher earning asset yields. The increase in net interest income compared to the same period in 2022 was primarily due to loan growth and higher earning asset yields, partially offset by higher funding costs.

Net interest margin was 2.47% in the first quarter of 2023, a decrease of 13 basis points from the previous quarter and an increase of 13 basis points from the same quarter of 2022. The decrease in net interest margin in the first quarter of 2023 compared to the prior quarter was due to higher funding costs, partially offset by higher earning asset yields. The increase in net interest margin from the same period in 2022 was primarily due to higher earning asset yields, partially offset by higher funding costs.

The average yield on loans and leases was 4.03% in the first quarter of 2023, up 22 basis points from the prior quarter and up 93 basis points from the same quarter of 2022. The average yield on total earning assets was 3.42% in the first quarter of 2023, up 25 basis points from the prior quarter and up 98 basis points from the same quarter of 2022. The average cost of interest-bearing deposits was 1.09% in the first quarter of 2023, up 40 basis points from the prior quarter and up 102 basis points from the same quarter of 2022. The average cost of total deposits, including noninterest-bearing deposits, was 0.75%, up 29 basis points from the prior quarter and up 70 basis points from the same quarter of 2022. The changes in yields and rates over the linked quarter and year over year period reflected the higher rate environment, including higher benchmark interest rates.

Noninterest income was \$40.7 million in the first quarter of 2023, a decrease of 1.1% from the previous quarter and a decrease of 6.5% from the same period in 2022. Noninterest income in the first quarter of 2023 included a negative adjustment of \$0.6 million related to a change in the Visa Class B conversion ratio. Adjusted for this item, noninterest income in the first quarter was \$41.3 million, up 0.3% from the prior quarter and down 5.2% from the same period in 2022. The decrease in noninterest income compared to the same period in 2022 was due to lower customer swap transactions and lower mortgage banking income.

Noninterest expense was \$111.9 million in the first quarter of 2023, an increase of 9.0% from the previous quarter and an increase of 7.7% from the same quarter of 2022. Noninterest expense in the first quarters 2022 and 2023 included seasonal payroll expenses of approximately \$3.7 million and approximately \$4.0 million, respectively. In addition, noninterest expense in the first quarter of 2023 included separation expenses of \$3.1 million. Adjusted for these items, noninterest expense for the first quarter of 2023 was \$104.9 million, an increase of 2.1% from the prior quarter and 4.7% from adjusted noninterest expense in same period in 2022. The linked quarter increase was primarily due to an industry-wide increase in FDIC insurance expense of \$1.5 million. The increase from the same period in 2022, adjusting for nonrecurring items in both periods, was primarily due to higher salaries and benefits expense of \$1.8 million, higher software license fees of \$0.9 million and higher FDIC insurance expense of \$1.7 million.

The effective tax rate for the first quarter of 2023 was 25.38% compared with 22.40% in the previous quarter and 22.15% during the same quarter of 2022. The increase in the effective tax rate on a linked quarter basis was due to a non-recurring benefit from the leveraged lease terminations received in the fourth quarter and an unfavorable discrete tax item in the first quarter. The year over year increase was primarily due to lower benefits from tax credit investments. The effective tax rate in the first quarter of 2022 also included benefits from leveraged leases that have since been terminated.

#### Asset Quality

The Company's overall asset quality remained strong during the first quarter of 2023. Provision for credit losses for the first quarter of 2023 was \$2.0 million compared with \$0.2 million in the previous quarter and a net benefit of \$5.5 million in the same quarter of 2022.

The ratio of the allowance for credit losses to total loans and leases outstanding was 1.04% at the end of the quarter, down 2 basis points from the end of the prior quarter and down 17 basis points from the end of the same quarter of 2022.

### **Balance Sheet**

Total assets were \$23.9 billion at March 31, 2023, an increase of 1.4% from December 31, 2022 and an increase of 4.1% from March 31, 2022, primarily due to growth in our earning assets.

The investment securities portfolio was \$8.1 billion at March 31, 2023, a decrease of 1.6% from December 31, 2022 and a decrease of 7.1% from March 31, 2022. These decreases were due to cashflows from the portfolio exceeding the pace of reinvestment. Period end unrealized losses on securities decreased by \$120.7 million from the prior quarter end. The investment portfolio remains largely comprised of securities issued by U.S. government agencies and U.S. government-sponsored enterprises.

Total loans and leases were \$13.8 billion at March 31, 2023, an increase of 1.3% from December 31, 2022 and an increase of 10.2% from March 31, 2022. Total commercial loans were \$5.6 billion at March 31, 2023, an increase of 1.9% from the prior quarter and an increase of 10.9% from the same quarter of 2022, primarily due to an increase in our commercial mortgage portfolio. Total consumer loans were \$8.3 billion as of March 31, 2023, an increase of 0.9% from the prior quarter and 9.7% from the same period in 2022, primarily driven by increases in our residential mortgage and home equity portfolios.
